

Voltage stabilizers

We provide a wide range of **automatic voltage stabilizers** that continuously monitor the incoming mains supply and will automatically adjust the output voltage, should the input rise or drop, to ensure that the **load regime remains** as close as possible to the required value.

- Fast regulation
- Improved protection
- High efficiency

	Power	Type	Application
GPSTB11	3-50 kVA	Servo voltage stabilizer	1 ph.
GPMST11	3-50 kVA	Static voltage stabilizer	1 ph.
GPMSR33	3-3000 kVA	Servo voltage stabilizer	3 ph.
GPMST33	10-500 kVA	Static voltage stabilizer	3 ph.
