

Customized transformers

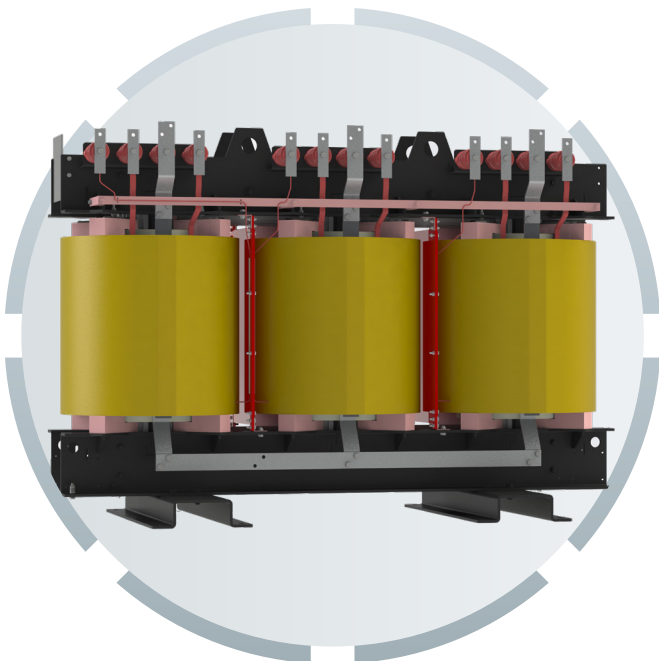

We are specialized in the design and production of **tailor-made transformers** for any standard and **special application**.

The knowledge of diversified applications allows us to supply competitive products, responding to specific customers' needs in different sectors as heavy industry, power electronics, research institutes and special plants.

▀ **Total custom design**

▀ **High reliability**

▀ **High efficiency**

	Power	Features	Application
Integrated choke	Up to 800kVA	Up to 7kHz switching frequency	Power electronics
Multi-tapping	Up to 10MVA	On request	Industry, test room
Multi-winding	Up to 10MVA	On request	Industry, naval, power electronics
High- current	Up to 10MVA	Up to 20kA	Induction heating, soldering, test room
