

Rectifiers and battery chargers

We are specialized producing **power rectifiers, industrial battery chargers and energy stations** with high-reliability components.

We provide standard products for telecommunications and hospitals, and rectifiers designed according to the customer's specifications and data sheets. Our products are suitable to be installed and used with all input mains ratings; they are available over a broad range of size and **for all type of applications**.

- ▀ High efficiency
- ▀ Safety and reliability
- ▀ Compactness

	Current	Voltage	Features	Application
Energy station	Up to 240A	Out 48V	Complete load protection	Telecommunications
Energy station	Up to 240A	Out 12/24/48/110 V	Complete load protection	Industries, Hospitals
CB3	Up to 250A	Out 24/48/110/220 V		Industry
CB3 power rectifier	Up to 10 kA	Out on request	Custom configuration	Industry
