

## Reactors

We have a wide experience in design and production of **tailor-made reactors** for industry, distribution systems and special applications. Our reactors can be used to limit, filter or regulate the current depending on the type of application and customer's needs.

- ▀ High mechanical strength
- ▀ High reliability
- ▀ Custom design

	Voltage	Features	Application
S.C. CURRENT LIMITING	Up to 36 kV	Indoor/Outdoor	Substation, Industrial plant
MOTOR STARTING	Up to 7.2 kV	Up to 20 MW motor	Industry
SMOOTHING DC CURRENT	Up to 3.6 kV	Up to 5 kA AN/AF/ANWF	Induction heating, Arc furnace
SMOOTHING REACTOR	Up to 7.2 kV	Up to 2kA AN/AF	DC-LINKS
